

Disability:IN Southern California Partnership Agreement

Disability:IN Southern California Affiliate and _____ (The Partner) entered into a partnership agreement on _____ (The Effective Date).

Disabilityinsocal.org and _____ (The Partner Website) will have the other company's logos added on a partnership page or equivalent.

Both partners will ensure events/activities are added to their respective social media feed(s) (minimum once a quarter). Both partners will ensure any invites to disability events, galas, educational events, or other activities are communicated with the communication director or equivalent for each event.

This partnership is not a financial agreement, however each partner should have a means of connecting to each partner's website to collect donations.

At a minimum, each partner needs to blog or publish a story or event each quarter to highlight the partnership or promote the other's accomplishments. Before publishing, the partner should have a read-ahead copy which they will have 2 business days to review.

If there are any changes to the agreement, they should be completed and documented in an updated partnership agreement.

Disability:IN Southern California reserves the right to terminate a membership with due cause should this agreement be breached in any way. This decision will require a majority vote by the current board of directors.
